# *Révolution Française*

*Liberté*

*Égalité*

*Fraternité*

We all learnt about it at school but what really happened?

Peter Synan OAM, historian, honorary member and past Club President, will speak to us about the French Revolution, which began with the storming of the Bastille prison on July 14 1789, a day that is now celebrated each year as French National Day.

Peter, well-known for local history, is also fascinated by the French Revolution and its part in the creation of modern France.

Did the revolution generate the ideas of liberty, equality and fraternity? Did it really reawaken the Greek idea of a democratic republic? Was it simply a ruthless bloodbath that actually damaged these values and ideas for a time?
